## Stack, Queue and Heap

Basic Level Questions:

## Stack:

- Implement a Stack Class with the following methods:
  - o push()
  - o pop()
  - o peek()
  - o empty()
  - o search()

[Follow here: https://www.geeksforgeeks.org/stack-data-structure-introduction-program/]

• Reverse a String using Stack

[Follow here: <a href="https://www.geeksforgeeks.org/stack-set-3-reverse-string-using-stack/">https://www.geeksforgeeks.org/stack-set-3-reverse-string-using-stack/</a>]

• Check the expression has valid or Balanced parenthesis or not.

[Follow here: <a href="https://www.geeksforgeeks.org/check-for-balanced-parentheses-in-an-expression/">https://www.geeksforgeeks.org/check-for-balanced-parentheses-in-an-expression/</a>]

• Implement two Stacks in an array

[Follow here: <a href="https://www.geeksforgeeks.org/implement-two-stacks-in-an-array/">https://www.geeksforgeeks.org/implement-two-stacks-in-an-array/</a>]

## Queue:

- Implement a Queue class(using arrays) with the following methods:
  - o enqueue()
  - o dequeue()
  - o front()
  - o display()

[Follow here: <a href="https://www.geeksforgeeks.org/array-implementation-of-queue-simple/">https://www.geeksforgeeks.org/array-implementation-of-queue-simple/</a>]

• Implement a Circular queue with the same methods in the above problem statement

[Follow here: <a href="https://www.geeksforgeeks.org/circular-queue-set-1-introduction-array-implementation/">https://www.geeksforgeeks.org/circular-queue-set-1-introduction-array-implementation/</a>]

• Implement a Deque (Doubly Ended Queue) with insertion and deletion allowed at both the ends.

[Follow here: <a href="https://www.geeksforgeeks.org/deque-set-1-introduction-applications/">https://www.geeksforgeeks.org/deque-set-1-introduction-applications/</a>]

## Heap:

• Implement a Maxheap using arrays and recursion.

[Follow here: <a href="https://www.geeksforgeeks.org/max-heap-in-java/">https://www.geeksforgeeks.org/max-heap-in-java/</a>]

• Implement a Minheap using arrays and recursion.

[Follow here: <a href="https://www.geeksforgeeks.org/min-heap-in-java/">https://www.geeksforgeeks.org/min-heap-in-java/</a>]

• Sort an Array using heap. (HeapSort)

[Follow here: <a href="https://www.geeksforgeeks.org/cpp-program-for-heap-sort/">https://www.geeksforgeeks.org/cpp-program-for-heap-sort/</a>]

• Maximum of all subarrays of size k.

[Follow here: <a href="https://www.geeksforgeeks.org/sliding-window-maximum-maximum-of-all-">https://www.geeksforgeeks.org/sliding-window-maximum-maximum-of-all-</a>

subarrays-of-size-k/
